

# Micro Church Colors

## Guidelines common to all groups:

1. Be aware of your own health. If you are feeling sick in any way, or you have been around someone who has been sick, please stay home and self-quarantine for an appropriate period of time.
2. If you have been attending a micro church or other group and become ill or test positive for Covid-19, please notify your leader so the rest of the group can be alerted.

## Color Codes

### Red

**10 people or less.** The most cautious group. Masks will be worn at all times and we will do our best to provide appropriate distance between families. Meals and food will not be a part of these groups. Hand sanitizer will be available and surfaces will be disinfected prior to gathering. If the weather and logistics permit, these groups may meet outside.

### Yellow

**11-20 people.** The “middle” group. Masks are suggested especially when socializing before and after the service, but masks are not required. Social distancing protocols in effect, if possible. Food and snacks may be available, but this may vary per group.

### Green

**Open numbers, but looser protocols.** Those attending a green group are less worried about precautions in regards to preventing Covid-19 spread. Masks are optional all of the time (i.e., some may not wear a mask at all). Social distancing will be minimal. Each group will determine if they would like to share a meal together.
